Hello,

My name is (XXXXXX XXXXXX). I am an Assyrian American. I live in (XXXXXXXXXX).

I and my family are very concerned about the plight of our people in the Middle East. We are contacting you about the House Resolution **H. Con. Res. 75** that if passed would label the violence against Assyrians and other minorities as genocide.

My entire family and I would deeply appreciate any efforts to help our people survive, and fully support the recognition of genocide. However, there are several issues with the Resolution that we hope can be fixed and/or modified:

First, we ask that Assyrians and other minorities receive humanitarian aid and support directly.

Second, we ask that the praise of the Kurdistan Region of Iraq for so-called “protecting” those fleeing ISIS be removed, as they have demonstrated a desire to drive Christian Assyrians out of their homeland.

Third, we ask that the plight of Assyrians and other minorities is not grouped with the violence against Kurds and Arabs, because our suffering is very different, since Assyrians face a very real threat of total disappearance unless they receive direct international support.

Lastly, I ask that Assyrians be recognized by our ethnic name in the resolution and not just as Christians, the same way that other minority groups are listed.

Thank you for your time and consideration.
